FOREWORD

The material contained in this publication has been compiled from the audited financial statements of the municipal corporations in the Province of Manitoba which have been submitted to this Department as required by the Municipal Act. Some minor alterations have been made to the financial statements in order to present the financial information on a consistent basis for comparable purposes. For example, although some municipal corporations record the water utility and the sewer utility as separate accounting entities, these utilities have been combined for the purpose of this publication since the majority of water and sewer systems are operated as one unit and the operation cannot be separated.

The graphical presentations of General Fund Revenue and Expenditures again appear on pages 57 — 62. The Revenues by Type and Expenditures by Function are the same data as presented in General Fund Revenue and General Fund Expenditure shown on pages 20 - 27.

A statement showing the total gross income and gross expenditures for all funds of the municipalities for the year 1983 is included in this publication on pages 50 to 53, inclusive. All inter-fund transfers of money between funds in the year have been eliminated from this statement, in order to avoid duplication of amounts in both the income and expenditure totals.

The Comparative summmarized statistics on pages 55 and 56 show the applicable amounts for the current year, the preceding years, 1981 and 1982, the fifth preceding year 1978, and the tenth preceding year 1973. These comparative statistics clearly illustrate the significant increases in the volume of municipal tax imposition and taxes collected over this period of time.

The immediate cash surplus or deficit of a municipality represents the difference between total cash assets and total current liabilities of the general operating fund as at December 31, 1983. The immediate cash deficit of all municipalities is $13,870,681 at December 31, 1983, an impairment during the year of $10,980,665. In total 121 municipalities showed a cash improvement in 1983, and 81 municipalities showed a cash impairment.

In addition to the immediate cash deficit of $13,870,681 referred to above, the municipalities had investments of $18,777,118, exclusive of trust investments. The total investments are analyzed by individual municipal holdings on pages 46 and 47 in this publication. Trust investments of $495,416,978 are included in this analysis. These investments are largely composed of sinking funds and employee pension funds as presented on pages 18 and 19.

AVANT-PROPOS

Cet ouvrage est le résultat de la compilation des états financiers vérifiés des municipalités manitobaines, soumis à notre ministère conformément à la Loi sur les municipalités. Nous avons dû parfois modifier quelque peu ces états financiers, de façon à en faciliter l'étude comparative. Par exemple, lorsqu'une municipalité avait à son bilan deux postes distincts pour ses services d'alimentation en eau et d'égout, nous les avons fondus en un seul puisque la plupart des municipalités possèdent un réseau d'aquéduc et d'égout qu'elles exploitent en bloc, rendant ainsi impossible toute distinction administrative.

Vous trouverez aux pages 57 à 62 les représentations graphiques des recettes et des dépenses des fonds d'administration générale, classées respectivement par sources et par secteurs d'activité. Les données utilisées pour ces graphiques sont tirées des tableaux des recettes et des dépenses apparaissant aux pages 20 à 27.

L'état des recettes et dépenses brutes de tous les fonds municipaux pour l'année 1983 se trouve aux pages 50 à 53. Nous n'avons tenu compte d'aucun transfert de crédits d'un fonds à un autre, éliminant ainsi les variations des montants totaux des recettes et des dépenses qu'auraient occasionnées les écritures d'ajustement.

Dans les tableaux comparatifs des pages 55 et 56 figurent les chiffres de l'année courante, ceux des années 1981 et 1982, et ceux d'il y a cinq et dix ans, soit 1978 et 1973. Ces tableaux font clairement ressortir l'augmentation considérable des taxes municipales et des sommes perçues au cours de la période visée.

L'excédent ou le déficit de caisse d'une municipalité s'obtient en calculant la différence entre l'encaisse et le passif à court terme de son fonds d'administration générale au 31 décembre 1983. Le déficit de caisse de l'ensemble des municipalités était de 13,870,681 $ au 31 décembre 1983, ce qui, comparativement à l'année précédente, représente une diminution de 10,980,665 $. En tout, 121 municipalités ont augmenté leur excédent de caisse en 1983, et 81 l'ont diminué.

En plus de ce déficit global de 13,870,681 $, les municipalités détenaient des placements d'une valeur totale de 18,777,118 $, à l'exclusion des placements fiduciaires. Les portefeuilles de chacune des municipalités font l'objet des tableaux des pages 46 et 47. Les placements fiduciaires, d'une valeur de 495,416,978 $, sont inclus dans ces tableaux et sont étudiés plus en détail aux pages 18 et 19; il s'agit principalement de fonds d'amortissement et de caisses de retraite pour les employés.
